

CASE STUDY

A NATIONAL FOOD CONTAINER COMPANY

PROBLEM:

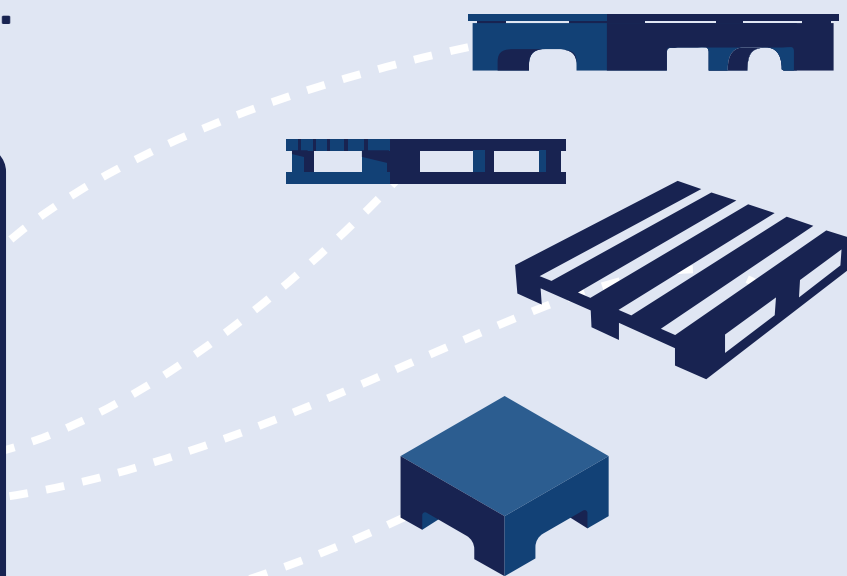

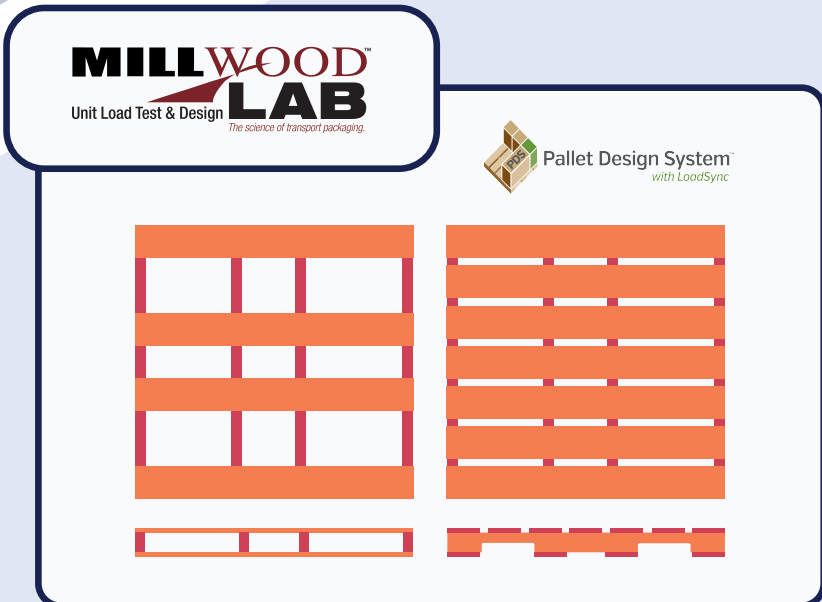

THIS COMPANY WAS USING **10** SIMILAR PALLET SKUS TO SERVICE 10 DIFFERENT CUSTOMERS.

THIS TOOK UP VALUABLE WAREHOUSE SPACE.

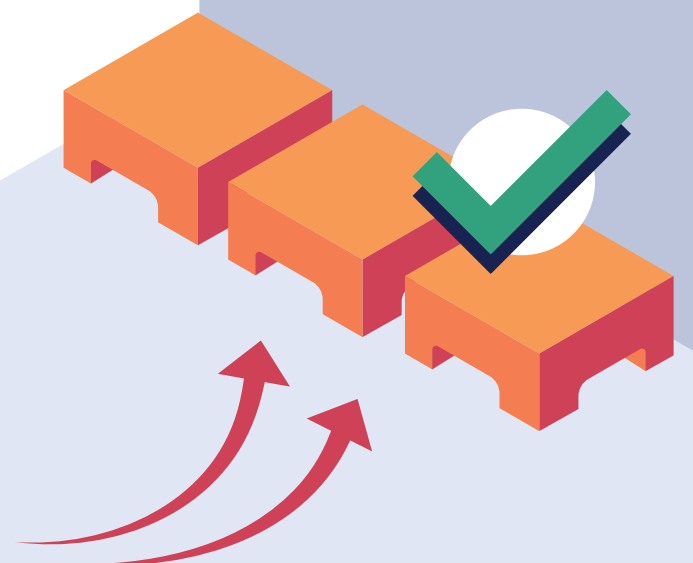

SOLUTION:

MILLWOOD DESIGNED **1** PALLET THAT ACCOMMODATED ALL 10 CUSTOMERS.

BY REDUCING THE AMOUNT OF SKUS, WE WERE ABLE TO FREE UP A SIGNIFICANT AMOUNT OF WAREHOUSE SPACE -

960 SQ FT
(15,360 CUBIC FEET)

NOW INSTEAD OF SOME SKUS GOING UNUSED, THE CUSTOMER HAS A HIGHER TURN RATE BECAUSE OF THIS NEW PROGRAM.
